RUSSIAN CENTER IS RAPIDLY RE-FORMING NOW

FRUITLESS FIGHTING ZAPATA IS ON WESTERN FRONT

Expected Detachment of German Troops from East Does Not Arrive in West.

ITALIAN ADVANCE IS SLOW

Angle-French Troops Heavily Bombarding Turkish Right without Result.

LONDON, June 29 .- The Russian center in Galicia is rapidly re-forming behind the river, Gnila Lipa, before General von Linsingen's drive across the Dniester, but this restreat, in the opinion of London military critics, is almost entirely due to the battle in the Lemberg region where the posi-tions of the Russians made retirement inevitable. These movements have strengthened the Austro-German line and have consolidated the hold of the Teutons on the regained Galician capital.
Fruitless fighting sums up the op-

erations along the western front where even artillery duels lack vigor except on the line between Arras and ea, where a bombardment of the positions has been almost continu-

The expected detachment of German troops from the eastern front for operations in the West has apparently

not yet occurred. The advance of the Italians has been very slow but if it is to be entirely stopped more Austrian troops must in all probability be transferred from the Galician line unless Austria is willing to surrender the seaport of Triest. Triest, however, being the first important milestone on the road to go to Vienna, it no doubt will be defended to the last gap.

Anglo-French troops on the Galli-poli peninsula are heavily bombarding the Turkish right wing without result, according to the Turkish of-ficial report but the other side has not yet announced the conclusion of this operation.
